

Seasava Plus

Ramp

A boarding ramp is included on 8 man size **Seasava Plus** liferafts.

U.S.C.G Approved

Seasava Plus 4 – U.S.C.G. Approval # 160.051/A266/0

Seasava Plus 6 – U.S.C.G. Approval # 160.051/A267/0

Seasava Plus 8 – U.S.C.G. Approval # 160.051/A268/0

RFD/REVERE's Seasava Plus offers double buoyancy chambers manufactured from a specially formulated polyurethane (PU) proofed nylon fabric. This fabric is highly resistant to abrasion and impervious to corrosion in the marine environment. It is far more durable than rubber-based fabrics,

and the reduced need for repairs results in considerable savings in servicing costs. Welded seams, which are significantly stronger than glued seams, give the raft an extremely rugged construction.

A light weight, waterproof, durable valise is available for all sizes of **Seasava Plus** liferafts. Valises are made of a high visibility material. When packed, the valise design and shape make it easy to launch the raft overboard.

A space saving low profile GRP container is available for all **Seasava Plus** liferafts. The container is secured to an aluminum deck-mounted stowage cradle with a hydrostatic release allowing for both manual and automatic launching.
